bibliotheca Tattle-Tape™ workstation

the efficient, durable, all-in-one solution

The bibliotheca Tattle-Tape™ workstation allows staff to process library materials quickly and efficiently while virtually eliminating false alarms. With the ability to desensitize and resensitize Tattle-Tape™ Security Strips on print materials, CDs and DVDs, this ergonomic design with intuitive feedback indicators makes it simple for staff to quickly process materials.

benefits of the
Tattle-Tape™ workstation

Flexible, space-saving design
Utilize desensitization and resensitization of Tattle-Tape™ Security Strips, as well as scanning of barcoded materials, all in one unit! The Tattle-Tape™ workstation complements virtually any library decor and is easy to install into or on any counter.

Easy-to-use interface
The item workflow of the Tattle-Tape™ workstation accommodates individual preferences, while enhancing ergonomics and efficient material processing for library staff.

Reliable processing
The Tattle-Tape™ workstation indicates the presence of an active Tattle-Tape™ Security Strip when the verification option is enabled and visual indication if system is down. The enhanced L-coil technology inside the Tattle-Tape™ workstation reduces false alarms while the high-impact resistant material exterior maximizes durability.

Barcode scanner connects with ILS/LMS database
The integrated barcode scanner makes it quick and easy for staff to process items and immediately update the ILS/LMS database. Utilizing the staffConnect™ circ software interface, this all-in-one workstation communicates directly with the ILS/LMS, making staff material processing fast and efficient.

Specifications : bibliotheca Tattle-Tape™ workstation

Dimensions	h: 226.8 mm / 8.9" | w: 416.1 mm / 16.4" | d: 327.4 mm / 12.9"
Weight	24 lb (10.9 kg)
Power	100/120 or 200/240 VAC, 50/60 Hz, 2.0/1.0 A, Single phase
Certifications	UL-Certified, meets the EU WEEE and RoHS directives
